7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Balurghat B.Ed. College is the premier and the pioneer institution founded by a team of dignified persons, sons of the soil and founding leaders of the college, who are educationists and efficient educational administrators with wide knowledge and experience about the existing situation of three levels of education in the country, more especially about quality teacher education and the quality of education. They had dreamed of a college of teacher education at Dakshin Dinajpur district, which they, with active support from Balurghat Educational Promotion and Welfare Trust and a long list of local educationists, leaders and social reformers, rendered into a reality in 2004. The college has already achieved a commendable position and status in India as one of the teacher education institutions of excellence. The mission behind the college is to impart quality teacher education to prospective as well as in-service teachers not only of the district but of North Bengal as well with the firm aims to educate and train them to play meaningful and effective role in the classroom and to generate quality devoted teachers to give quality education to pupils in the classrooms. The vision of the college founding team is to ensure and provide them quality teacher education and training so as to enable them to produce quality students to achieve quality national education which is essential for national development in all domains. Students are additionally trained to play constructive roles as responsible members of the society as well as dutiful and responsible citizens of India. The partition of India in 1947 had adversely affected the district. The major chunk of the district went to East Pakistan now named Bangladesh leading to the break-down of the social fabric and economic foundation. The influx of refugees had changed the demographic status of the district pushing a big chunk of population into the depth of poverty. In addition to it, a sizeable population of the district belongs to the Scheduled Caste and Scheduled Tribes of different categories and

more specifically people of economically weaker classes. The cumulative effect of the realities is the backwardness of the district in national assessment with its rank recorded as 256th among the 540 backward districts in India.

Naturally the district is deprived of quality education and education in general. The founding leaders of the college have aimed at quality education for prospective teachers with a view to promoting education among the students of the backward classes and raising the quality of education in the district. To meet the needs of the people of the area the college was established. It is successfully running 03 (three) teacher education programs i.e. D.El.Ed., B.Ed. and M.Ed.
